RECENT EXPERIENCE

OTHEUS MEDIA
Full Stack Developer
Oct 2018 - Present

Otheus Media is a small scale web and media agency located in Sydney. My role as a full stack developer is to develop both front-end and back-end web systems taking into account user interface/experience, website and basic application development and database management.

Key skills acquired:

- Front-end development (User interface/experience) - use of CSS, JavaScript, Photoshop and Illustrator
- Back-end development - use of HTML, JavaScript and PHP
- Strong communication and leadership skills through working within small teams

TELSTRA
Customer Advisor
Feb 2020 - Present

Working within the retail industry as a customer advisor, my job is to understand situations from a customers perspective to best recommend products and solutions.

Key skills acquired:

- Strong interpersonal skills built through communicating with team and customers
 - Sales experience having to achieve monthly KPI's
 - Great product knowledge of existing and upcoming technologies
-

SAMSUNG
Galaxy Brand Expert
Mar 2018 - Jan 2020

This position required me to work closely with multiple retail partners as an 'Expert' for the Samsung Galaxy Brand, providing training for upcoming products and engaging with customers.

Key skills acquired:

- Strong interpersonal skills built through communicating with large teams and customers
- Sales experience having to achieve monthly KPI's
- Great product knowledge of existing and upcoming technologies
